S. LUDLOW, Agent, Sedley's Building, Court street, Boston.

DOW, COE & CO., Agents, Tribune Buildings, New York.

JOHN BURRILL, Agent, 36 Kilby street, Boston.

The Law Regarding Newspapers and Periodicals.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

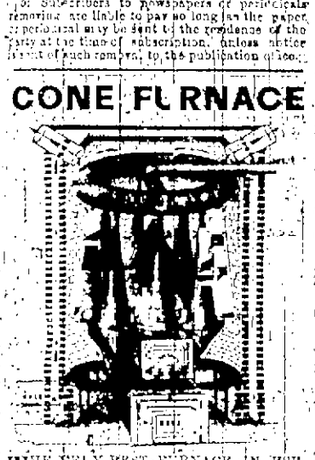
2. If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, and subscribers are responsible for all the numbers sent.

3. If subscribers neglect or refuse to take the papers from the office to which they are directed they are held responsible till they have settled their bills, and ordered them discontinued.

4. Courts have decided that a refusal to take a newspaper or periodical from the Post Office, or to notify the publisher, and the payment of arrearages, is prima facie evidence of fraud.

5. Subscribers to newspapers or periodicals removing are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription, unless notice of such removal to the publication office.

CONE FURNACE



THE VERY BEST FURNACE IN USE which has been patented in America, England and France, and which took the Diploma at the last State Fair in this city. Any quantity of reference can be given as to its *durability* and economy over all others now in use.

It will set up in the very best manner, and warranted to give entire satisfaction.

Albert Noyes.

July 20th.

PIANO TUNING

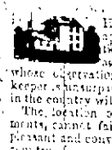
Mr. John D. Conley

HAVING been engaged in Tuning and Repairing Pianos, Organs, Melodeons, &c., in this city for more than a year, still offers his services in the above to his friends and the public generally. Orders left at his Room, 74 Main-st, will meet with prompt attention.

N.B. Mr. Conley offers his services in selecting Pianos, Melodeons, &c., to persons about buying, gratuitously.

CODMAN HOUSE,

RE-OPENED!



This spacious and commodious House has been recently refitted and refurnished for the accommodation of the public, under the management of J. A. BACHELDER, whose experience and experience as a Hotel keeper is unsurpassed. One of the best Cooks in the country will officiate in the kitchen.

The location of the House and its appointments, cannot fail to render it one of the most pleasant and convenient stopping places in the country.

In connection with the House is a large *Stable* for the accommodation of parties. Also, a safe and convenient Shed, with double and single stalls, as may be desired; and having secured the services of one of the most experienced Hostlers, the public may be assured that their Horses will receive the best of care and attention. There is also a large Shed fitted up with stanchions for cattle, separate or in droves.

☞ Special pains will be taken to accommodate people emigrating to the Aroostook on the most reasonable terms.

J. A. BACHELDER, Proprietor.

Oldtown, Feb. 1, 1859. dly

Salary $1000 a year, or an interest in the business. Address POST MASTER, Port Royal, Virginia.

MOFFAT'S MAGNET CHLASTER

The GREAT STRENGTHENER and PAIN DESTROYER.

THE best and cheapest Household Remedy in the World—Simple and pleasant in its application—certain and effectual in its results. A beautiful, scientific, external Curative, applicable for the relief of Pain at any time, in any place, in any part of the human system, and under all circumstances. If you put this Plaster any where, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetizes the Pain away, and

Pain cannot exist where this Plaster is applied.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, down even to Corns are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest, and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman and the feeble infant. To each and all it brings Balm and a Blessing. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor, all may have it, and all should have it who are sick and suffering in any way.

FARMERS should always be supplied with this invaluable PLASTER. It will be the Good Physician in any household, ready at all times, and at instant notice.

Put up in air-tight tin boxes. Each box will contain eight plasters, and any child can spread them. Price 25 cents a box, with full and plain directions.

D. C MOREHEAD, M. D.,

Inventor and Proprietor,

199 *Walker-st., New York.*

MOREHEAD'S MAGNETIC PLASTER is sold by all Druggists in every City, Town, and Village in the United States.

YOU HAD BETTER TRY

KY MOTHER'S SALVE!

THIS CELEBRATED PREPARATION

Was obtained an envied and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers of such a fearful misfortune, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this SALVE, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"MY MOTHER'S SALVE"

Is a perfect CHEMICAL COMPOUND, prepared from ROOTS, HERBS AND GUMS, gathered from the forest, and possesses *Healing, Soothing and Pain-Relieving Virtues* never before combined in a Salve or Ointment.

"MY MOTHER'S SALVE"

Is SAFE AND EFFECTUAL and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a PERMANENT CURE.

"MY MOTHER'S SALVE"

In a BURN or SCALD takes out the fire, soothes the irritating pain, and heals the wound more speedily and better than any other preparation.

"MY MOTHER'S SALVE"

Is worthy of confidence, and thousands having used it and relieved it to their friends, is a test of its worth. *Directions for using*

"MY MOTHER'S SALVE"

are simple. Every mother and nurse knows how to spread a plaster and dress a sore and all who use the Salve will apply it in proportion, renewed at times as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with the Salve. In case of Cough, Tightness of the Lungs, Sore Throat and such like ails, rub as in case of Rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. BESOR,

BURRILL'S HUNTING, Sole Proprietors, No. 8 Tremont Street, Boston.

For sale, wholesale and retail, by B. F. Bradbury & Co. and W. L. Alden & Co., Bangor; B. B. Bradbury, Newport; A. J. Stockwell, Vassalboro; T. Bateholder, Kenduskeag.

ETHERIZATION.—History of the discovery and statements as to its results, sold by

mch2 E. F. DUREN.

The Loney Blade Grass.

THE results which have been attained, by experiments on the cultivation of this newly imported species of product, have awakened an interest among the farming classes, in many sections, never before equalled in the entire history of our agricultural industry. Facts, in regard to its valuable properties, which, at first, seemed almost incredible, have now been established beyond the possibility of a doubt, and it is believed, of those best capable of judging of its merits, that its general introduction will add millions of dollars to our agricultural wealth. I have not the space here to enter into details, but will present briefly some of its advantages.

First—It will produce double the weight to the acre in any soil, of any other kind of grass.—From four to six tons per acre is not an uncommon yield, and I am in possession of sworn statements by disinterested and reliable persons, of a yield of over eight tons of good, dry hay from a single acre, in soil where it was not possible to get more than one half the amount from any of the common grasses.

Second—The same weight possesses more nutriment, and, consequently, will sell for a larger price, in the market, thus insuring the farmer more than double the return from his ground, that he could obtain from any other forage plant. The hay possesses one third more nutriment than timothy, and has sold for $15 per ton, where the price of timothy was but $10 or $12.

Third—Both hay and seed can be produced from the same crop, the hay being equally valuable as other hay after the seed is taken from it, while the seed is as valuable as the best of other grain, as a feed for horses, cattle, pigs, chickens, &c., and it is proved to be superior to linseed for the manufacture of oil and must always find a ready sale, at a fair price, for this purpose.

Fourth—It matures in about two months time, and can be sown on grounds where other crops have failed, either by drouth or other causes and, at the same time, will yield a large return.

Fifth—In northern climates, where clover and other grasses are killed out by hard winters, this will yield a large crop, and, in those sections of the South where other grasses will not thrive at all, it will grow very profitably.

Sixth—It will flourish all kinds of weather, and, whether the season be wet or dry, the farmer may always rely upon his *Honey Blade* as a sure crop.

These and other advantages are proved by facts which are endorsed by some of the first agriculturists of the Union, and cannot fail to carry conviction to every intelligent reader.

Having been engaged, during the past year, in the purchase and importation of the pure *Honey Blade Seed*, I have determined to offer it for sale on our customers as will make it an object for every farmer and planter to interest himself, during the coming season, in its cultivation. It is put up in uniform packages of about sixteen pounds each, the amount being sufficient to seed one acre, and the price is $3 per bag, delivered in New York or St. Louis.

Single bags, or lots, can be sent to any part of the country as freight or by express, and will be put up and delivered for transportation, and the proper arrangements made, free of charge.

Each bag is stamped with the Engraving cost of arms, and the following lettering, *"Honey Blade Hungarian Grass Seed."* It will be sold by agents in various sections, but parties should be careful of whom they purchase, and secure the pure genuine seed, as they are especially cautioned not to purchase the common Hungarian Grass seed, as it is very far inferior to the HONEY BLADE.

An interesting pamphlet, containing all of the facts, and full particulars, will be furnished, free of charge, by me or any of my agents, upon application. I will state, as an indication of the intense interest which the subject is exciting, that nearly a quarter of a million of copies of this pamphlet have already been supplied for.

Parties desiring to secure seed should order at once, as the indications are that the limited amount obtained will be exhausted long before the season of sowing has passed. Those who secure seed this year can realize a rich return, by producing seed to supply the demand of farmers and planters for sowing another year.

Orders should be sent directly to me, unless in the vicinity of New York, where they will be filled by J. M. EMERSON & Co., 428 Broadway, New York, General Agents.

Agricultural Houses, General Merchants, and all other parties properly situated, can be appointed agents for the sale of the *Honey Blade Seed*. Authority, full particulars and from 50 to 100 pamphlets for distribution, will be furnished either by me or the New York Agency, on receipt of 25 cents, to prepay the package.

I am authorized to name the following well-known gentlemen as references: Hon. H. H. Berlett, President of the St. Louis Agricultural and Mechanical Association, Vice President of the National Agricultural Society, and Member of Congress elect from St. Louis; Gen. J. Tillman, Oxford, Miss., President of the National Agricultural Society, John J. Anderson, Banker, St. Louis; John Hogan, Jr., Broker, St. Louis; and ex-Mayor Washington King, St. Louis.

$2 per square for first week—$1 per week for continuance.

A DEMOCRATIC CIRCULAR—THE TOWN ELECTIONS. The general result of the town elections in Maine, as the Portland Advertiser well says, must be a serious and galling disappointment to the Democratic wire-pullers of the State. For the past three months, indeed ever since the election of last autumn, the agents of the Administration and the professed followers of Douglas have been striving in concert to induce a large number of the towns to elect Democratic Selectmen, in order that the check lists of voters might be under the control of those who desire an overthrow of the Republican ascendancy in the State. Many of the more outspoken and communicative classes of Democrats have not hesitated boldly to avow the purpose entertained, and have virtually confessed that it would be impossible for their party to triumph in Maine until it could have the opportunity to manufacture a large class of illegal voters. The faithful among the democracy were stimulated to special exertion by the following circular from the State Committee forwarded under this "engrossment" of Mr. Roberts.

Voted, That the members of the State Committee be directed to correspond with the several Town Committees, or leading Democrats in every town in their respective Counties, *and urge upon them the great importance of electing Democratic Town Officers in every town where it can be fairly done.*

Attest:—A. M. RICHARDS, *Chairman.*
S. L. LYMAN, *Secretary.*

FEBRUARY, ——, 1859.

Gentlemen—Pursuant to the above vote, I write to call your attention to the importance of electing Democrats for Selectmen in your town, at its next Annual meeting, if we wish to preserve the purity of the ballot box, to protect our rights of suffrage. From hollow information from various sources, and by a comparison of the number of votes thrown last September with those thrown the three preceding years, the State Committee are assured that our political opponents practised great frauds in many localities in the last Gubernatorial election. Their actual control of the voting lists and the ballot boxes in many towns in which the Democrats have a majority, afforded them the opportunity, and the inducement compels the belief that it was improved. It is demonstrable that the Democracy in two of our three members of Congress, and some twenty odd members of our Legislature, by *fraud and cheating*, "For we did, for cheated." And we shall protect ourselves from a repetition of their cheats and frauds, if by a thorough, early, we must elect democrats in every town in which our party have a chance for success, by the many, not votes and majority of forty. *Putting your Town Officers' election on a party ground, and acting upon the results of the occasion*, everything for our future and nothing for us of the cause of Black Republicans in Maine are numbered.

Members State Committee.
——— *County.*

Town Committee.

Well, this circular was dispatched to all the towns of the State, and in pursuance of its instructions the elections were placed upon party grounds" with more than ordinary stringency. The greater portion of the towns have, with the past fortnight, held their meetings, and the result shows that the democracy were never so badly beaten at any spring election. It shows what the people think of the attempt to fraud and cheating, and that they know which party is guilty of it.

At the head of the smashing opposition to the Aroostook Railroad will be found Lot M. Morrill. Although notoriously committed in opposition to it, every move out of his hands against it. His message to the legislature was a studied attempt to prevent any aid being extended by the State to the project. Instead of referring to the power and wealth of the region, he gave a melancholy and exaggerated account of the poverty of the treasury. The hollowness of all his economical pretensions is sufficiently shown in his basis of high resolves appropriating $10,000 to certain Academies and by the recommendation of the building of a new prison at an expense of $250,000.—*Bangor Times.*

We consider his assault upon Gov. Morrill to be entirely uncalled for, under the circumstances. There is nothing in his personal or official actions or words to indicate that Gov. Morrill is opposed to the policy of State aid to the Aroostook railroad. Nor is there anything to indicate that he will not sign a bill giving such aid with quite as much "haste" as he did the Academy resolves. To be sure he has not declared himself openly in favor of granting the State credit, and he has (as it was his duty to do) called the attention of the Legislature to the *general* fact that our State expenditures are likely in the future to exceed the ordinary income, unless the state tax is increased. But all this furnishes no evidence that Gov. Morrill is opposed in any way, either "unkindly" or otherwise, to an appropriation of the public lands to the building of the road. We believe, in fact that he will give his influence will be given in favor of it at the session. At all events, we consider such imputations as the above from professed friends of the Aroostook railroad to be exceedingly ill-advised.—If anything would induce cautious men in other parts of the State to oppose a measure which is largely for the benefit of Penobscot (but to which they do not, at any rate, feel very strongly opposed,) it would be groundless imputations, exaggerated charges and groundless insinuations coming from Penobscot friends of the road, and such as are contained in the extract we have given. Democratic organs which profess to be friendly to the Aroostook railroad, do not in reality aid the measure by thus attacking Gov. Morrill, who is a Republican and a Kennebec man, and has many personal friends who might resent such needless assaults. It he did not himself take offence at them.

Gov. Morrill should be trusted with discretion by the democratic friends of the Aroostook Railroad. It might, in fact, be supposed that they would refrain from abuse, if their political antipathies were not in reality stronger and more active than their aspirations for a new State policy.

DREADFUL DEATH FROM HYDROPHOBIA.—Joseph Wright, of Cincinnati, was bitten by his dog about six weeks ago, but thought little of the circumstance, supposing the animal to be vicious rather than mad, and nothing occurred to excite alarm, until Wednesday, 9th, when he felt a great deal of pain in the arm bitten by the dog. The pain increased and a physician was sent for, who gave him a lotion, but intimated to no one the danger of his patient. The sequel is thus told by the Enquirer of the 15th inst.:

"Wright's suffering increased, the pain extending to almost every part of his body, until Sunday morning, when it became raving mad, and his death soon was declared to be by hydrophobia. He raved at times, and tore his hair and flesh, and foamed at the mouth, and screamed like a demon, presenting a sight terrible to behold. It was necessary to bind him to the bed to prevent him from committing violence upon himself. At times, in his exquisite misery, he prayed to be killed at once and relieved of his agony. The sight of water or the mention of the term, threw him into spasms, and he fell frightfully and groaning upon the floor. Those who witnessed the poor man's madness, say they never knew before how supremely wretched man may be—it was awful to contemplate, and would have startled and mortified the dullest and most unimpassioned hatter. At last death came in mercy, and touched him with the hand of eternal stillness. Nature was exhausted, and he expired about eleven o'clock night before last."

SINGULAR DISORDER IN MICHIGAN.—The Grand Rapids Eagle reports that a murder and two suicides occurred under singular circumstances in the town of Ensley, Newaygo county, on the 14th inst. In the early part of the week two young men, Jacob Dopp and Enos Merritt, called on a Mr. White and wished to borrow money, but were told by Mr. White that he had none. On Friday, as Mr. White and his son were cutting up a well spool, Merritt again appeared and asked the young man to go with him on a distant marsh, and help fetch in a deer which he had shot. The young man complied, and not long after the elder White was startled by the crack of a rifle, and a ball whizzed past his head, grazing his temple. He ran into the house and loaded his rifle, and upon coming out saw Merritt step out from behind a tree and raise his rifle, aiming it directly at him. He fired instantly, and again retreated in the house, crying "murder!" at the top of his voice, as did Merritt also. While and his neighbors then started in search for the young man, but were unsuccessful.

The next day Dopp and Merritt were both found in an old hovel, the former dead, shot by his own hand, the latter but just alive, having taken strychnine. From Merritt before his death, however they learned enough to enable them to find the body of young White, behind a log in the forest, spoken of by Merritt, it appears, both shot by Dopp, and Merritt at the entreaties of the latter, at the point of the pistol, pretended to conduct the young man to the spot, where Merritt turned back. Dopp and Merritt passed the night at the house of John Osborne, and were observed to be very unlevel. They left early in the morning, and were afterwards found as above stated. They were noted characters. It is supposed they believed White had money in his house, and intended to murder the whole family to get it, and that the young man was enticed into the woods with no expectation that his appearance would be the occasion of hiring suspicion upon him than the murderer of the family, and screened.

A gentleman of high social consideration in Genoa, lately made the discovery that his wife was unfaithful to him. Waiting his opportunity, he found the guilty pair together, and politely showed them the way to the street door, which he closed after them. He then sent a servant for an undertaker, and ordered the arrangements for a funeral, sent out cards of invitation to his friends, and, over the dying culprit, performed the ceremony for a departed with. This over, he delivered the light husband to the hearse, and, once more addressing his friends, called for their congratulations upon the fact that he was now a widower—upon which, opening the folding doors, he introduced them to a splendid dejeuner à la fourchette. His sayeties which thus surrounded his happy return to single life were prolonged till morning.

RICHARD CONDER, was a Suspension Bridge, Sunday, on his way to Niagara Falls. The Buffalo Commercial says: "It is regretted by many of our citizens that the body of Hon. Daniel Conder, who died in Brunswick, on Sunday last, was not brought to Buffalo. He was here many years ago, and his leading recollection of the place is that of being unbarred at night in a bed-room, where about twenty-five men missed up their beds at his entrance. There was one spare bed, which the host assigned to Mr. Conder, who explained, (there was an Englishman, he said, his predecessor in one of them being in favor of having a disputative bed room. The host was full of information, he had one spare room; but it was a very large room. That is exactly what I like, said Mr. Conder. But, said boniface, it is a very large room indeed, sir. We have music and a band in it, and sometimes dancing. That is just such a room as I like, said he. So he slept that night on a shake down, in the big ball room.

A REMARKABLE SCENE.—We have seen a private letter from a gentleman who was present when the yacht Wanderer, condemned as a slaver, was sold at Savannah by order of the United States Court. The writer says that when the auctioneer commenced, Lamar stepped up and said: "Gentlemen, this vessel belongs to me in every sense of the word. She has been taken from me by the high hand of the law. The United States claim her, but I say she is mine; and I do not expect any one to bid against me. And I did not do so for her." Mr Van Horn bid against him, and the price was run up to $5000, at which the vessel was knocked down to Mr Lamar. The successful bidder then turned to Mr Van Horn and, with words too profane and indecent to be repeated, knocked him down. The fallen man rose to defend himself, but the sympathy of the company was so man fastly with the assailant, and the indications of violence and bloodshed so plain, that his friends took him away, some of Lamar's backers crying out, "Charley, kill him!" which the writer of the letter does not doubt would have been promptly done, had any resistance been made.

Savannah has always been regarded as an orderly city, and one in which, it anywhere south of the Potomac, the laws against the slave trade could be enforced with the full support of public sentiment.—*Providence Journal.*

Southern papers concur in the statement that vegetation in that latitude is at least one month in advance of ordinary years.

LOCAL AND MAINE NEWS.

OLD AND NEW STYLE TYPE

FOR CARD PRINTING!

We have received several New Specimens of Card Type, which we wish to call to those desirous of having Cards Printed in the most Fashionable and Latest Styles.

BANGOR MUTUAL FIRE INSURANCE COMPANY.—This new enterprise of our citizens, whose organization has been recently noticed in the city papers, challenges the attention and regard of all who are interested in the institutions of Bangor, or who care for the welfare and prosperity of this section of the State.

The movement is now here, although the business the Company proposes to do has for a long time, and to a very great extent been transacted amongst us.

Hitherto, with the single exception of the business done by the Penobscot Mutual Insurance Company, restricted as that is to particular kinds of risks, our people have contracted themselves with companies located abroad, and have most strangely neglected an interest of great magnitude to themselves, and have largely aided to sustain the institutions of other communities, or have taxed themselves heavily to swell the profits of the moneyed corporations of other States.

If those who hold property liable to be destroyed by fire, will give the subject of its preservation but a fraction of the care and thought they have necessarily given to its acquisition, the success of the new Company is such a community as ours will be secured.

Insurance, in its extended signification, is the union of many for the preservation and security of the property of each individual. Each, to obtain security for his own, contributes towards a common fund in proportion to the amount of his property and the hazard it is in. In a certain sense it is a partnership in the business. The statement be of strict accountants in respect of Mutual and reasonably so as to Stock Companies. The professed basis of the first being a division for only such contributions or premiums as will meet losses and expenses; while the Stock Company requires premiums sufficient to pay losses, expenses, and *profits to those, who manage the business.* This is the distinction. If the companies are equally well managed, in the one he assesses pays the cost of his insurance, and in the other he pays cost and *profits also.*

This cost and these profits are other matters will be considered hereafter

A SAFE RETREAT.—Our fellow citizens who have been for divers days encamped in the primitive regions bordering upon the West Branch—pursuing nature a her wildest haunts, and also the trout and the deer—but perchance, being in turn treated to nature's more turbulent moods of storm and flood—arrived safely at home on Tuesday evening, with our friend, the Collector, who acted as host of the party, in his log house encamp in the wilderness. We are happy to have him that the river is now receding from water with which they were reported to be crowded and kept from their homes and anxious friends, were mainly imaginary.

A MIDNIGHT ALARM. Between twelve and one o'clock yesterday morning the residents near the crossing of French and Somerset Streets were alarmed by the cry of murder. One or two of the citizens turned out and found an Irishman who appeared to be in liquor. He was considerably bloody and said he had been beaten by two persons. The assailants had bruised him considerably, but whether it was a ruse to excite sympathy to rob him does not clearly appear. The assaulted individual took himself away and did not appear yesterday to make any complaint.

PANORAMA. This is an interesting and instructive exhibition which will be open this (Thursday) afternoon and evening, at St John's (Catholic) Church. To-morrow and also at the admission in the evening will be 10 cts.

Go early to secure a seat.

THE FRESHET.—The jam of ice in the Penobscot moved down about the time yesterday forenoon soon after the low tide—the lower end of the jam then reaching to the neighborhood of Robert Stearn's Mill in Hampden and the upper end resting at the mouth of the Kenduskeag. The water at the city rose some three feet with the tide—going over the wharves only a foot or two.

The Kenduskeag Bridge was relieved of the ice which pressed upon it Tuesday night—but not without some damage to the main gas-pipe which crosses beneath its arches. The damage was not material, however.

Later P. M.—The jam still remains firm, and the water in the stream at the same height.

The freshet has caused considerable damage at and above Frankfort Mills, on the north branch of the Marsh stream—the ice crushing down with great force, and carrying away four bridges which cross that stream in the town of Frankfort, viz: the Marsh, the Cur le, the Elliott and the Lord bridges. At Frankfort Mills the street leading out of the village to Prospect was overflowed more than three feet, and obstructed by large cakes of ice. A number of families were driven out of their houses. The lower floor of Thomas Moulton's stable was flooded and one of his horses was with difficulty saved from drowning. No sudden was the rise of the water. The first notice that the hostler, Mr. Thomas Kenney, who slept in the stable, had of the inundation was the flowing of the water over his bed.

JUMPED OVERBOARD. At Gardiner on Sunday afternoon, a young man named Parsons, in a fit of insanity as is supposed, jumped from a bridge into the Cobbosseconte, but was rescued, after being carried down to where the stream joins the Kennebec river.

FATAL ACCIDENT. Mr James Ricker of Solon, at work on Moose River, in the logging swamps for Mr Hezen Whipple, was killed on Monday the 14th inst, by the limb of a tree.

SUDDEN DEATH OF LIFE INSURANCE.—Mr. Isaac Center, who died in Brunswick, on Sunday in consequence of injuries received from the explosion of a fluid lamp, had two policies of $5000 each, in different offices, upon his life.

THE GOVERNORS OF MAINE.—The Augusta correspondent of the Portland Advertiser states that a proposition is before the Council for taking measures to procure portraits of those who have held the office of Governor of this State.

* President of Senate—Acting Governor.
† Speaker of House—Acting Governor.
‡ Office declared vacant by Legislature.

It is a remarkable circumstance that, in less than one year, in 1843-4, Maine had five different Governors, as follows:

Gov. Fairfield, elected for 1843, resigned.
Gov. Kavanagh, President of the Senate 1843, resigned.
Gov. Dunn, Speaker of the House, 1843, superseded by
Gov. Dana, President of the Senate, 1844.
Gov. Anderson, elected for the year 1844.

The engine attached to the freight train from up-river was thrown upon its side by the land slide above Kenduskeag, on Saturday, and damaged—to what extent we are not informed. The slide was in a cut of the road, and the engineer could not see the obstruction until too near to avoid it. It was fortunate under the circumstances, that no injury occurred to the men on the train.—*Bath Times.*

ANDROSCOGGIN RAILROAD DEBTS. The State of Maine, in reference to the debate between Messrs McCrillis and Pike, says:

Mr McCrillis spoke for progress, for material, commercial, and social development. In elevated, tone characterized his speech and drew forth the most generous expressions of favor.

Mr Pike, of Calais, took the opposite side. He attacked every material interest of Maine, he denounced the friends of public improvements as enthusiasts and schemers. He paraded before the House, the projectors, stockholders, and managers of Railways, the public plunderers, and all such speculators. He also deprecated the introduction of capital, and the growth of cities, as the surest means of public corruption and the decay of individual nature.

After speaking for three hours in this strain Mr Pike finally came to the question in issue, and argued that Calais was the *natural outlet* of the Aroostook, and that by means of the St Andrews and Woodstock Railroad the trade of that whole region would be diverted from Bangor, and the western portions of Maine, to the St Croix. He took occasion it decry all the Railway enterprises of Maine and the British Provinces, denouncing alike the Grand Trunk, the Buckfield Branch, the York & Cumberland, and all the lines of railway east of them. Mr Pike spoke five hours.

The reply of Mr McCrillis on Saturday, was severe and pungent. He expressed his astonishment at the audacity of Pike's misstatements and the degrading positions he chose to assume, comparing him to the incendiary who fired the temple of Diana at Ephesus for the sake of the notoriety he might thereby acquire.

OUTBREAK IN A STATE PRISON—*Three Prisoners Shot.* The Albany Knickerbocker states that the prisoners employed in the hame shop at the State Prison, Auburn, N. Y., made an attempt at revolt on Saturday afternoon last. It seems some of the convicts made resistance to the officers and threatened their lives. The Warden, Mr Kirkpatrick, in self defence, was driven to draw his revolver and fire among the refractory rascals. Two of them, it is feared, are mortally wounded. A colored fellow, who was the leader in the revolt, was shot through the thigh.

THE DEBT OF GREAT BRITAIN.—In 1783 the British national debt amounted to $1,241,865,173. In 1858 this debt amounted to $3,875,655,768. Were this sum laid down in guineas in a line, it would extend more than 13,421 miles; if in British shillings, it would extend more than ten and a half times round the globe. The sum in solid silver would weigh 136,447,2 tons, and would require 181,930 horses to draw it, allowing 15 cwt. for each horse.

GREAT FLOOD ON THE CONNECTICUT. *Springfield*, March 21. Heavy rains on Friday and Saturday in the upper Connecticut valley caused a greater flood on Saturday than that of last Wednesday. The river here was over twenty feet above low water mark on Sunday, and over twenty-six feet at Hartford. The bridges at Charlestown and Walpole, N. H. were carried off. The Sullivan Railroad bridge at Bellows Falls was considered and rendered impassable. The flood is nearly as high as that of 1854, which was the highest ever known. All the lowlands and meadows in the valley were overflowed, and many houses flooded. The water is now receding.

ANOTHER DEMOCRATIC CONVENTION IN PENNSYLVANIA. *Philadelphia*, 21st.—Mr. Forney's Press contains a call for another Democratic Convention at Harrisburg, on the 12th of April, to vindicate Gov. Packer from the assaults of the recent State Convention at Reading; to re-assert the principle of popular sovereignty, and to wind into democratic principles.

A ROCKLAND SLAVER. *New York*, 23d.—Captain Idod of brig Tyrant, is under arrest at Key West for procuring and landing a cargo of slaves at Havana. The crew were also arrested, but subsequently discharged. The Tyrant belongs at Rockland, Me.

ALL the governments of Europe are wanting to borrow money. Austria wants to borrow $80,000,000; England, $35,000,000; Sardinia, $10,000,000. France wants a large sum, and Russia, it is expected, will also be trying its credit to a large extent. About $100,000,000 is the aggregate wanted by these different governments to put themselves in a position to prevent one being eaten up by the other.

The city government of Providence have ordered the purchase of two steam Fire Engines, and 5000 feet of hose and appropriated $17,000 for defraying the expense.

Counterfeit three cent pieces are circulating extensively in Albany.—*Small Business.*

A FATHER KILLS HIS SON. At Fulton, Tenn, on the 7th inst, a dispute arose between Mr James H. Bates and his son John about some cards which a younger brother was playing with; the father saying he did not allow such in the house, when the young man left the house, followed by his father, who told him not to return or he would stick his knife in him. The son returned, having no idea his father would use the knife, when his father stabbed him through the left breast, causing his death. Both were considered quiet and good citizens, and were worth considerable property. The father assisted in burying the son, and has not yet been arrested.

DESTRUCTIVE LAND SLIDE. A terrible avalanche occurred at Troy, on Thursday evening, involving the almost entire destruction of a splendid structure in process of erection, known as St. Peter's College. The college was located upon a large plateau at the foot of Mt. Ida, and was to have been five stories high and two hundred feet in length. Only two stories had been completed, and this was entirely destroyed. It is supposed that the building cannot be re-built upon the same spot. The accident occurring in the evening, it was not accompanied with loss of life or limb.

The Troy Whig says the hill is now in a very dangerous state, and another avalanche may be expected at any moment. The mountain is undermined, and an immense mass of earth has little or no support. The occupants of many houses in the vicinity have moved all their household goods to a place of safety.

SPECIAL NOTICES.

ST. ANDREWS LODGE, No 87 meets THIS (Thursday) EVENING, at 7 o'clock. A full and punctual attendance of the brethren is required. By order.

California's Mail Steamers via Panama, leave New York on the 5th and 20th of each month.

Bremen, via Nicaragua, leave New York on the 5th and 20th of each month.

The Havana Steamers leave New York on the 2d and 17th of each month, and Charleston on the 5th and 20th.

The New York steamers of the 2d and 17th are the only ones under strict contract with government, to sail on such specific days. Deviations are frequently made by the others, to avoid vexatious examinations, &c.

The mail contract with the Charleston steamers is up the year round.

The mails for California close at the Boston post-office at 5 P. M. on the 4th and 19th of every month, to go by way of the steamers leaving New York on the 5th and 20th.

The Overland Mail for California leaves St. Louis every Monday and Thursday. Letters designed for it should be marked "Overland, via St. Louis."

The rates of postage, at the Bangor Post Office, by these steamers, may be expected the second day after their arrival in New York.

TELEGRAPHIC

FOR THE DAILY WHIG AND COURIER

THREE DAYS LATER FROM EUROPE.

ARRIVAL OF THE

NOVA SCOTIAN,

AT PORTLAND.

PORTLAND, 23th.

The Nova Scotian which sailed from Liverpool the 9th, arrived here this morning.

The America arrived at Liverpool on morning of the 8th.

The American ship David Stuart, which recently sailed from Cadiz for New York, with the ex Neapolitan exiles (including Poerio) on board, arrived at Queenstown, Ireland, on Sunday; the exiles having, it is stated, when in the bay of Biskay, inserted on the Captain a warning direct for Queenstown.

The Dublin Daily Express reports that Poerio and his fellow exiles, am shutting in between 60 and 70, compose Captain Prentice, as soon as the Neapolitan war steamer left them, 120 miles from land, to steer directly for Cork. In this they were assisted by a young sailor, one of the exiles, who had shipped at Cadiz, and signed articles as one of the crew.

Arrived on the exiles landed at Queenstown their gratitude at some trace to such a pitch that they actually kissed the soil upon which they planted foot as free men.

Another dispatch says: On the arrival of the vessel outside of the Straits of Gibraltar, the refugees, who greatly outnumbered the crew, rose in mutiny, and insisted that the Captain should steer for Cork. The Captain says that refusal, but was forcibly deprived of command, and the second mate appointed in his place pro tem.

Britain.

On the 7th in the House of Commons Mr. Duncombe gave notice of sundry amendments to ministerial reform bill calculated to still further extend franchise.

Mr. D'Israeli in reply to question, said it was not the intention of government to grant exclusive privilege to the Atlantic Telegraph, or any other Telegraph Company.

Mr. Fitzgerald said government had been informed of arrangements had been made by Austria for recruiting and enrollment of military deserters and other fugitive subjects of Austria.

With regard to advice government had tendered to Sardinia, they had in a most earnest manner impressed upon the Sardinian government the ought to take no steps which might give cause of offence to Austria and disturb peace in Europe.

Lord Naas said Russia had received account of the arrival in Cork harbor of a vessel with Neapolitan subjects on board.

It was reported that Government dispatches to the British Admiral on the Pacific station at Panama had immediately on more than one occasion, to reach their destination in regular succession. It does not appear to be ascertained whether this is the result of piratical seizure or their having been intercepted.

The London Times in an editorial on the recent quotation says it implies opposition to Napoleon suffrage on the ground of its unsatisfactory working at the United States.

The leaders of the old Whig party held a meeting and resolved that Lord John Russell should propose certain amendments to reform with respect to borough voters, and it was supposed these resolutions would unite in their support, the whole Liberal party.

Meetings in opposition to government measures were being held in all parts of England and excitement increasing. There was a demonstration against it in Hyde Park, Sunday.

The submarine Telegraph between Malta and Cagliari again ceased working.

The stock exchange on the 8th, advanced per cent under the pacific article in the Monitor. On the 7th and 8th the Sardinian question, and the market closed buoyant at quotations.

Lord Derby's city article dated, Tuesday evening, says fresh stimulus was given to the funds by Prince Napoleon's retirement, and a general buoyancy of continental bourses; the positive reaction in Paris not being known in the business hours.

Eighth funds left off at an advance on the day of ¾ per cent.

An immense rebound had taken place in Austrian securities in all continental markets. At Vienna on Monday the rise was equal to 4 per cent since Friday.

Exchange on Vienna declined nearly 7 per cent in London during the last 8 days.

Times' city article says the retirement of Prince Napoleon causes funds to open with a decided feeling in favor of that personage himself on his retirement to be but temporary, and that the Emperor still cordially approves the policy.

The shipment of silver to the East on the 15th was expected to reach £300,000 sterling.

The Times congratulates the Neapolitan exiles on their arrival and says there is an immediate stronger than all political calculations which call on England to honor her mendicity.

The Daily News and Morning Post also give such a warm welcome.

France.

The steamer Pacific took out the news that the Monitor of the 6th contained a semi-official article.

The following are extracts of principal points:

The serious condition of Italian affairs has attracted the attention of the Emperor, whose solicitude, prudence and alliances in furtherance of the interests of France.

The Emperor has promised the King of Sardinia to protect him against any aggressive act of Austria, but his promises extend no further.

The Emperor denies that France is now making warlike preparations. She has not increased the effective force, she is accustomed to have during peace. Assuming that preparations in materiale have been made,

STEAMERS.

Portland and Boston Line.

The Splendid new sea going Steamers *Forest City, Lewiston*, and *Montreal*, will, until further notice, run as follows:

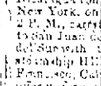
The transit of the Isthmus included.

The splendid steamship WASHINGTON, 2,000 tons burthen, Capt. Henry Turchill, having been thoroughly refitted and returned through the Nicaragua route, will leave our North River, New York, on Monday, the 5th of December, at 2 P. M., carrying passengers, mails and freight for San Juan del Norte, to connect at San Juan del Sur with the well known fine ocean steamship HERMANN, Capt. ——, for San Francisco, California. Each specific steamer will be despatched to accommodate the comfort and safety of passengers. Both the ocean route is thoroughly equipped and in good order, and the country healthy. For passage and freight apply only at the office of the Company, to

JOHN P. VELVE TON, Agent,
oct28 3m No. 3 Bowling Green, New York

WINTER ARRANGEMENT.

NEW YORK & PORTLAND.



The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 5 P. M., and returning, leaves New York, also, at 5 P. M., every TUESDAY, at the same hour.

This vessel has just been fitted up with finer accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fire and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also to and from the principal Railroad towns in Maine, with steamers for Baltimore. Goods taken through without exposure, at the cheapest rates.

Shippers are requested to send their freight to the Boat before 3 o'clock P. M. on the day that she leaves Portland.

For freight or passage, apply to

EMERY & FOX, H. B. CROMWELL,
Brown's Wharf, Pier 12 N. River
Portland. New York.

Portland, Dec. 10, 1858

California Steamers,

Carrying the United States Mail,

5th and 20th of each month.

Through Tickets, including transit of the Isthmus of Panama.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travellers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamer *without any extra charge.* This is the only line giving an entire Through Ticket, and being in connection on the Isthmus.

Transition is *four hours entirely by daylight*, and avoiding the worst exposure by night in open boats to fever and accident, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. (Pacific Mail) Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and by sunset, thus securing passengers by the Mail take a sure and short passage, with the greatest comfort and safety to *Tickets must be obtained only of the Company's Agents before they will be recognized by the Railroad at Panama*, and tickets thus obtained on board of the *only authorized Agent*, for the U. S. and Pacific Mail Steamship Company, in this city.

C. L. BARTLETT, Agent,
No. 16 Broad street, Boston
August 1, 1858 1y

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry (said he), 'till needs no Physician.

Is it not a truth that the best cause of colds and consumption, (and a truth that we believe often) is wet and damp feet? Soon becomes hard, stiff, and cracks; but when this water-proof Blacking is used. By the application of this preservative it becomes soft, and entirely impervious to water.

After having struggled for 25 years in the manufacture of leather in all its branches, and being often foiled, and with well-spent money, in the experimenting of different compositions, and found no success in making it water-proof, but the same time injurious to the leather. At last by solving several gums, I discovered a composition which perfectly harmonizes with, and retains all the great properties with which leather is blessed. It will not only make leather water-proof, but it takes away the stiffness that leather, and it will

Positively wear twice as long

I have now used it for three years, and a part of that time have worked in a tannery with my boots constantly in water, and I have had my feet well preserved the whole time. I can say with all confidence I have found it to be the best article in the market.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business, or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, with charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY Jr.

Bangor, Feb. 26, 1856

HONEY.

THE LUXURY AND PROFIT OF HONEY MAKING.

Dorey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Dorey's Patent Bee Hive* for the Counties of Penobscot, Hancock and Washington, which has been received with high favor, and taken the first prem ums wherever exhibited, has introduced an improvement into the Bee Hive and in those premises to make the same in connection with the Davis Patterns, and to sell rights to towns and individuals.

This Bee Hive thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrements for the proper separation of the swarms, and generally for the health and comfort of the workers.

The Loxie or split Bee Hive for storing honey, are the best adapted, in their size, for market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives, and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For Hives, individual rights, &c., address

R. S. TORREY,
No. 15 Fifth street, Bangor.

DR. HOBENSACK'S Worm Syrup and Liver Pills.

PROBABLY the reason why Worm Medicines so frequently fail of any *good effect* is the fact that they contain no qualities except as *Worm Killers*. Consequently in many instances where we mistake the symptoms of disease and doctor for worms, when the cause of disease is not worms, but a *derangement of the system*, the *consequent disorder and ill health* so often result *follows*, which ceases on the use of *Dr. Hobensack's Liver Pills*, which have a direct effect on the liver, as well as worms *either*, the patient immediately goes well, though no worms are brought away.

Thus it will be readily seen that if we pass *many medicines* over other worm preparations, as it is not only sure to kill and pass away the worms, but tones up and restores the patient to general health, besides.

PERRY DAVIS' Vegetable Pain Killer!

REV. T. ALLEN, writes from Texas, Burleson, says: "Within the past four years I have used, and disposed of above five hundred bottles, but am now out. Please send me a fresh supply (through the Mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it both by Indians and Europeans. Fathers take it with me into the woods, and have frequent occasions to use it on my self and others. One night, while sleeping in an open Texas, I was awoke by a most excruciating pain in my foot. On examination I found I had been bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep.

Rev. H. Van Meter of Bassett, India, says—Here let me assure you that we prize Pain Killer very highly. For the first two years of our residence in India we were without this valuable remedy, and ill for two it, but ridiculously handily feel as without it for a single day. Only a few nights since Mrs. [illegible] was taken very severely with cramp colic, and some Pain Killer was immediately administered throughout the attack, and relief followed. In the course of the night she was attacked with the same disease, and in the same manner, and in the same degree, and in the morning she was as well as ever. Pain Killer is a charm, and we would not be without it for any consideration. Yours truly, &c.

Mr. W. L. Carder writes from Calcutta, that Perry Davis's Vegetable Pain Killer is a very valuable medicine, and must become very popular in that country.

Sold by druggists throughout the world.

PERRY DAVIS & SON,
Providence, R. I.

Manufactured by PERRY DAVIS & SON, Providence, R. I. We have sold the Pain Killer for 20 years, and have never known it to fail in a single instance. We have sold as high as $700 on the Merchants Block of Medicines in this city in one year, and we have never known but one bottle returned, and that was because it was not used according to directions. Most of the Physicians in this city use it in their practice, and we believe it to be the best medicine in the world. Sold by all druggists in Bangor, and by dealers in Medicine throughout the country.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. ... Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Autotype Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated Chemist and officer in the British army, it is hardly necessary to say that the Paper in question is recommended by Mr. Kent, Assayer of the U. S. Mint; Mr. Lyman of the New York Clearing House, and Meade, Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$1 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the proportion inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 200 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company No. 70 Wall street, New York.

july29

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837.

76 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded in Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by those not immediately superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he needs abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved invention.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most faithful and careful gentlemen with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

"I have had occasion to employ him for that, they cannot employ a person more competent and trustworthy, and more capable of putting the application in a good form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"Hon. Edmund Burke, Washington, February 9, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that is now pending. Such unmistakable proof of fidelity and ability is what I can most cheerfully recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGERT."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber in course of his large practice, made or procured for his clients applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

R. H. EDDY.

THE LIVER INVIGORATOR

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums relieve all morbid secretions from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effects a radical cure.

Bilious attacks are cured, and will be entirely prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the worst cases of Dyspepsia, prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only a dose taken at night corrects the feverish, restless condition.

Only one dose taken each week will cure *Costiveness*.

Only one dose immediately relieves Colic, while

Those who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.
